**Apex MPEG VCD DVD Converter Crack+ X64**

Windows 7/XP/Vista/2008/2003 Apex MPEG VCD DVD Converter is an application that can encode AVI, MPEG, Windows Media, Quick Time and Real Player files to the MPEG, VCD and DVD format. The interface of the tool is clean and intuitive, so even novices can easily learn how to use Apex MPEG VCD DVD Converter. All you have to do is add files to the queue (batch conversion is supported), configure settings and initiate the encoding process. In the source list you can view the name, split span, frame size, output type and status of the files. You can also preview videos in a small window on the lower right corner of the screen. So, you can select the video format (MPEG type, frame rate, width and height), audio format (bitrate and sample frequency rate), output destination and optionally shutdown the computer once the tasks have been completed. The program uses a moderate-to-high amount of system resources and has an online step-by-step user guide. Videos are converted in a short amount of time and Apex MPEG VCD DVD Converter manages to keep a good image and audio quality. However, the "drag and drop" method is not supported and you cannot select multiple files at once to add them to the queue. Furthermore, the application crashed once while it was batch converting videos of various extensions and didn't manage to encode a MOV file. Also, you cannot create a new folder when you are selecting an output directory in the file browser, and you cannot rename the output file names. All in all, Apex MPEG VCD DVD Converter certainly deserves to be taken into consideration but, right now this tool needs some maintenance. Apex MPEG VCD DVD Converter Features: A very clean and simple interface. Supports several video and audio formats: MPEG, Real Player, Quick Time, Windows Media. Supports streaming video, so you can start converting the files while they are uploading to the server. Supports configurable presets, so you can set up the conversion as quickly as possible. Supports several output types: VCD, DVD, AVI. Supports the most common video types: AVI, MPEG, WMV, Real, Quick Time. Supports batch conversions with file/directory inputs.
