Publisher's Description Open the registry editor, and set the desired setting through the GUI: the app will automatically close itself afterwards. Change the color of some system settings and icons of windows, restore the original look for your Windows, change the visual settings and buttons of windows, change the app's splash screens, use an alternative color for the taskbar and the buttons, and much more! You can also set the default wallpaper of your system, change the Explorer menu's background and name, replace some images in your computer (e.g. logon screen, Windows icon, and others), change the system language, and much more. In the system settings, you can also use icons, custom backgrounds, and pin an app to the taskbar, as well as restore the original look of many things, such as Windows Explorer, system tray, Start menu, app icons, taskbar, and others. The app also features a custom full-screen mode, an option to choose between the Windows XP style buttons and the newer ones, create libraries, and manage desktop shortcuts and applets. The interface is intuitive, as you can easily find all the tabs you need. The app runs in the system tray, so you will be able to customize your Windows settings without having to leave your program. With a good response time, easy navigation, and a good user interface, Ultimate Windows Customizer is a nifty tool that can help you customize and personalize your Windows 7 system.
